

Total Eclipse

Quilt Size: 56" X 66" Yardage Chart

Total Eclipse was designed for both beginner and advanced quilters. To simplify the construction of the quilt, all the points in this quilt are floating points. This means you won't have any points which need to be matched and you won't lose any tips on your points when sewing the blocks together. The yardage was figured to accommodate several fabric choices for the different units which corresponds with the cutting instructions in this pattern. Yardage amounts for the larger quilts were not included in these instructions. Extra foundation papers for larger sizes can be purchased through our company. These extra foundation packages will include the yardage requirements, cutting instructions, and layouts for the larger sizes.
